Frequently Asked Questions (FAQs)

## 1. How do I use these slides to support my lesson?

- a. The slides are intended as a starting point and ending point for your lessons. There are key vocabulary and definitions as well in case a visual reference is needed. However, the intent of these slides is not to replace any lesson content. The following is a visual representation of how these can be used:

## 2. Why are the slides in PDF format?

- a. In order to be as universal as possible related to compatibility of browsers, operating systems, etc., we opted for a PDF version. This not only meets the needs of those teachers in the LST program, but also gives us more flexibility to update in the future.
- b. To view the PDF slides similar to a PowerPoint slide, choose full screen view to fill the screen of your smartboard, projector, etc. Click escape to return to normal. Advancing in PDF format is as simple as scrolling your mouse or using the arrows on your keyboard.

## 3. Do I have to use these slides?

- a. No. These are free optional support tools we created for your implementation. These slides have nothing to do with implementation fidelity. It is up to you whether you use them sometimes, all the time, or not at all.

We look forward to working with you and supporting all your implementation needs. If you have any questions, please feel free to contact us at [lstinfo@nhpamail.com](mailto:lstinfo@nhpamail.com) or via phone at (914) 421-2525.
